

Sovereign AI, Ready for Production

Validated reference architecture for secure, localized, & optimized enterprise AI deployments.

Built for Production
AI Agents:

Run AI close to
enterprise data, tools,
policies, and operational
workflows

Key Highlights

POD

Agentic Middleware
validated reference
architecture

LOCAL

Secure local AI
for enterprise
workloads

FX

Agentic Middleware
for production AI
operations

MCP+A2A

Data + Automation
integrated agent
orchestration

Key Benefits

DATA

Keep data local
protect enterprise
context

FAST

Secure local AI
pilot to governed
operations

SIMPLE

Agentic Middleware
simplify infra and
rollout

CTRL

Data + Automation
governance, access,
execution
